1 tbsp melted The Groovy Food Company coconut oil

with quite a stiff mixture (don't worry that's how it's supposed to be!).

4. In another bowl weigh out all the ingredients for the topping and combine with a fork.
5. Divide the mixture between the 10 muffin cases (it looks a little like cookie dough here) then lightly press 3-4 blueberries into the top of each one.

7. Let the cakes cool in their cases before you dig in!
